🌟 SEND Sensory Play Room Safe Space 🌟

New in Bedfordshire. A safe, stimulating sensory space for children with special educational needs and disabilities (SEND) to attend with family, carers and/or friends is now available.

Come along to a room filled with specially selected toys and soft play, bean bags and floor cushions, sensory light and sound equipment for a fun, stimulating and/or relaxing environment.

With many other places closed due to current restrictions we understand families are experiencing great limitations around finding safe stimulating places to take their children, as are carers who would usually take the child out to provide respite for the family.
