

# SJSG FRIDAY FLYER

A message from the Year 6 Team

Year 6 have worked really hard to complete their SATs this week, and we are so proud of them! We hope they enjoyed some downtime today by watching a film with popcorn and eating ice cream in the sunshine.

## Faith Life

Next week we will be celebrating Pentecost. We will be having a special lunch of Pentecost Pizza and cupcakes so make sure you have ordered for your child!

In the afternoon we will be having our Pentecost Performance which we are really excited for, we hope you will come and join us to celebrate this special day.

## Curriculum

This week in EYFS the children have been reading the story of the Three Little Pigs. They have been acting out the story and building using bricks, sticks and straw.

They children have also been learning more about prayer in RE and have been interacting with an alter in the classroom. Some children have been gathering around the alter to say our

## Supporting your Child

As your child progresses through the school there are certain maths facts that they should be able to recall quickly. Help your child to learn these by practicing them regularly.

In EYFS children should know all of the number bonds to 5, in Year 1, the number bonds to 10 and in Year 2 the number bonds to 20.

In Key Stage 2 children should be working on their times tables.

## Pedagogy

Modelling!

When children are learning it is important that they understand the processes needed to complete a piece of work. This is why we model. This means giving the children an example but completing it with the children and explaining what we are thinking whilst we do it. Modelling helps to clarify the small steps needed to complete a larger task. The children also get the chance to offer ideas and suggestions to make the class example better.
